A LETTER FROM DR. OMAR FATHI

A Standard You Can *Trust*.

My name is Dr. Omar Fathi. I am a licensed dentist, and I built Nile Smile Concierge for one reason — medical tourism has a trust problem, and I wanted to fix it.

Too often, patients traveling abroad for dental care are treated as transactions by travel agencies rather than patients by medical professionals. Decisions are made based on profit margins, not clinical viability.

We operate differently. Nile Smile Concierge connects international patients with fully accredited, top-tier dental clinics in Cairo. **Every single treatment plan is clinically reviewed by myself and our medical board** before you ever book a flight.

We prioritize transparency, evidence-based care, and documented warranties over high-pressure sales tactics. This is not a compromise on your healthcare. *It is an upgrade.*

We look forward to welcoming you to Egypt.

Omar Fathi

I Where Clinical Excellence Meets *Seven Millennia.*

The story of why patients from around the world choose Cairo — for the medicine, for the value, and for the recovery.

THE CASE

Egypt Is Not a *Compromise. It's an Upgrade.*

World-class dental care should not be financially out of reach. In Cairo, premium materials and elite clinical expertise intersect with a lower cost of living — allowing you to access superior care without the inflated markups of North America or the UK.

IMPLANT SUCCESS
RATE (SYSTEMATIC)

The Clinical Case

Egypt's dental faculties — Cairo, Alexandria, Ain Shams — train more dentists annually than most European countries combined. Top graduates complete fellowships at the ITI (Switzerland), RCS Edinburgh, and ADA-accredited programs in the US. The clinical standard is not "close to" Western — it *is* Western, delivered at a fraction of the cost.

The Cultural Case

Recovery is part of healing. Where you spend the days after surgery affects inflammation, mood, and adherence to aftercare. A Nile-view hotel, a private Pyramids tour, and Egyptian hospitality — this is not decoration; it is clinical recovery strategy.

The Economic Case

Egypt's cost of living is approximately one-fifth of the US. This isn't a discount on materials — it's a structural cost advantage. The implant you receive is the same Straumann or Nobel Biocare fixture used in Manhattan. The overhead that supports the practice is simply 5× lower.

The Trust Case

Nile Smile Concierge is founded by a licensed dentist. Every treatment plan is reviewed by our medical board before a quote is issued. Written warranties. Locked prices. 2-tier implant coverage. This is what accountability looks like in a market that has historically lacked it.

THE INSTITUTIONS

Trained at the World's *Top Institutions.*

Our partner specialists graduated from and trained at Egypt's most prestigious dental faculties — institutions recognized among the best globally.

Cairo University

TOP 101–150 GLOBALLY

Faculty of Dentistry ranked among the top 150 worldwide (Shanghai 2025). International orthodontics program with the Royal College of Surgeons of Edinburgh.

Alexandria University

#1 IN AFRICA & ARAB REGION

Highest-ranked Faculty of Dentistry in Africa and the Arab region. Postgraduate degrees accredited by RCS Edinburgh.

Ain Shams University

TOP 151–200 WORLDWIDE

Ranked 151–200 in Dentistry & Oral Sciences. AQAS international accreditation. Continuing education programs accredited by the ADA.

International Fellowships

Many partner specialists hold clinical fellowships from institutions in the United States, United Kingdom, and Germany. This means the standard of care you receive in Cairo mirrors what you would find at a top-tier clinic in Boston, London, or Frankfurt — same protocols, same materials, same success criteria.

Verifiable Credentials

Before booking, we share your treating specialist's full name, credentials, licensing status, and case portfolio. Every specialist is registered with the Egyptian Dental Syndicate — the national licensing authority. No anonymous providers. No promises you cannot verify.

The Pyramids of *Giza*.

The last surviving wonder of the ancient world. Only 30 minutes from your recovery hotel — a private, guided tour available on your post-operative rest days, cleared by your treating dentist. You'll stand before structures built 4,500 years before the first modern dental school existed.

THE CITY & THE RIVER

Cairo, and the *Nile*.

Cairo is one of the few cities in the world where you can recover from surgery with a view of a 7,000-year-old river — and return home with world-class dental work.

The Eternal River

The Nile has sustained life in Egypt for over 7,000 years.

Nile Dinner Cruise

An evening on a 5-star floating restaurant. Soft-food menu available. Included in Premium and Signature packages.

Khan el-Khalili Bazaar

Cairo's oldest market. Private guided walking tour with personal shopper and translator available.

Egyptian Museum (GEM)

The Grand Egyptian Museum with King Tut treasures. Wheelchair access and rest stops included.

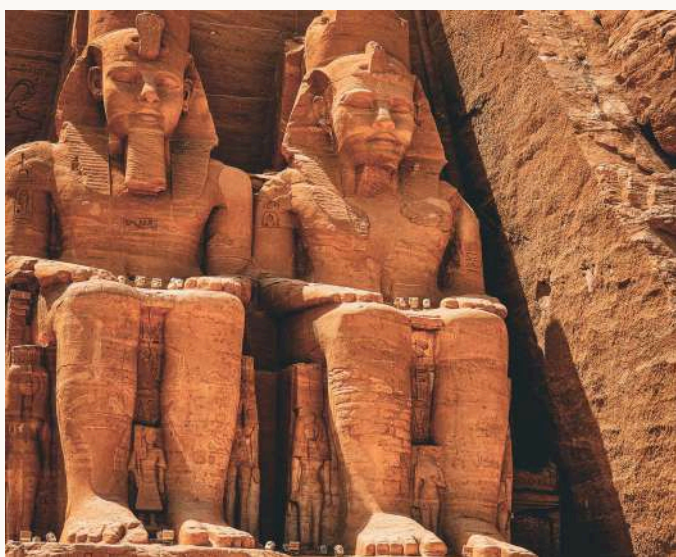

The *Red Sea*.

1,800 kilometers of coastline on two seas. Water temperature 22–26°C year-round. Best diving visibility in the world — 25+ meters. Ras Mohammed, Dahab, and Marsa Alam offer the planet's richest coral reef ecosystems. Post-treatment only, after medical clearance.

UPPER EGYPT

Luxor & *Abu Simbel.*

A day trip by domestic flight from Cairo — the temples of Upper Egypt represent the most ambitious architectural achievement of the ancient world.

Legacy in Stone

The temples of Upper Egypt represent the pinnacle of ancient Egyptian architecture.

Luxor Day Trip

Valley of the Kings, Karnak Temple, and Hatshepsut Temple. Post-recovery only. All transfers and lunch included. From \$450 per person.

Hot Air Balloon over Luxor

Sunrise balloon ride over the Valley of the Kings. Available after medical clearance. Booking coordinated by your concierge.

THE WINTER ADVANTAGE

Why Winter Is the *Perfect Recovery Season.*

While North America and Europe spend winter in dark, cold months, Cairo enjoys mild 18–22°C sunshine — the ideal climate for post-operative recovery.

Sunlight & Healing

Vitamin D synthesis supports bone healing after grafting or implant placement.

Warm Water Year-Round

The Red Sea maintains 22–26°C water. Winter offers the year's best visibility — 25+ meters.

Private Tours Only

No crowds, no waiting. Only you, your guide, and the monuments.

Extended Stays

Red Sea resort add-ons and Nile cruise extensions available year-round.

For Australian Patients

THE BRAND

Redefining *Dental Tourism.*

Nile Smile Concierge is founded and operated by a licensed dentist — not a travel agency.

WHAT WE ARE

- **A Clinical Concierge** — We manage your logistics, but our foundation is medical expertise.
- **Clinically Reviewed** — Every treatment plan is vetted by a licensed dentist before approval.
- **Documented & Transparent** — Written warranties, locked-in prices, detailed protocols.
- **Patient Advocates** — We represent your health interests first and foremost.
- **Independent** — We work with multiple partner clinics, matching you with the right one.

WHAT WE ARE NOT

- **A Travel Agency** — We don't just book flights and hope for the best.
- **A Clinic** — We match you with the best specialist for your specific case.
- **A Marketplace** — We do not sell your leads to the highest bidder.
- **Salespeople** — We will never pressure you into unnecessary treatments.
- **A Franchise** — We are not a chain. Every relationship is direct.

II

Five Journeys. One *Standard.*

Each program is clinically reviewed, priced with a written lock, and delivered with a documented warranty.

PROGRAM 01

Signature Zirconia *Smile.*

Complete smile makeover with 24 monolithic zirconia crowns — for patients seeking full aesthetic transformation.

STARTING FROM

\$4,400

- 24 monolithic zirconia crowns
- Digital Smile Design (DSD) simulation
- Laser gum contouring where indicated
- Root canal treatment if clinically required
- CAD/CAM precision bite alignment
- Temporary restorations during fabrication
- Post-op care kit and written aftercare protocol
- 5-year clinical service warranty on prosthetic work (documented)

Clinical Timeline • 7–8 Days in Cairo

- *Day 1 • Assessment*
CBCT scan, digital impressions, DSD planning with your prosthodontist.
- *Day 2–3 • Preparation*
Precision preparation, tissue stabilization, provisional try-in.
- *Day 4–6 • Fabrication*
CAD/CAM design, milling, occlusion testing, shade verification.
- *Day 7–8 • Final Delivery*
Cementation, bite adjustment, post-op review before departure.

PROGRAM 02

Prime Bite

Full Restoration.

Full-arch restoration with premium implants and 24 zirconia crowns — for patients with partial tooth loss requiring permanent implant-supported prosthetics.

STARTING FROM

\$9,700

- 24 zirconia crowns (single-piece, high translucency)
- Straumann or Nobel Biocare implants
- Immediate loading protocol where indicated
- Extractions and socket preservation where needed
- Provisional restorations during healing phase
- Final review + gum contouring at 3 months
- 2-tier implant warranty (documented)
- Post-return telehealth coordination with local dentist

Clinical Timeline · Two Trips (4–7 Months)

Trip 1 · Week 1

CBCT imaging, surgical planning, implant placement, and fixed provisional prosthesis within 48–72 hours. You leave Cairo with a functional smile.

Healing · 3–6 Months

Osseointegration (bone fusion). Remote monitoring via photo uploads and telehealth check-ins at 1 month and 3 months.

Trip 2 · Week 2

Final impressions, trial fitting, permanent zirconia prosthesis delivery. Gum contouring and bite optimization.

Aftercare · Lifetime

Three scheduled telehealth follow-ups. 24/7 WhatsApp. Coordination with a licensed local dentist when needed.

PROGRAM 03

Forever Young

Full-Arch.

Complete full-arch reconstruction (All-on-4 or All-on-6) for patients facing total tooth loss — the most comprehensive treatment we offer.

STARTING FROM

\$18,200

- 12 premium implants (6 per arch, guided surgery)
- CBCT-guided planning with 3D-printed templates
- Lightweight BioHPP framework (bone-preserving)
- Full-arch zirconia prosthesis (22 units per arch)
- Titanium framework upgrade available
- Complete extraction and ridge preparation if needed
- Immediate provisional fixed bridge within 72 hours
- 2-tier implant warranty (documented)

Clinical Timeline · 3–6 Months Total

- *Day 1–2 · Diagnostics*
CBCT, digital planning, template fabrication, medical clearance, anesthesia consultation.
- *Day 3 · Implant Placement*
Guided placement of 6 implants per arch. Duration: 2–3 hours per arch under local or IV sedation.
- *Day 4–5 · Provisional Delivery*
Fixed temporary bridge attached same week so you never leave without teeth.
- *Month 3–6 · Final Prosthesis*
Second visit to Cairo. Final impressions, try-in, permanent zirconia bridge delivery.

PROGRAM 04

Implant Rescue Program.

For failed dental implants from previous treatment abroad. Full diagnostic evaluation, atraumatic removal, bone reconstruction, and new implant placement.

STARTING FROM

\$4,800

- Full CBCT diagnostic evaluation of failed implants
- Atraumatic removal of failed fixtures
- Bone grafting / socket preservation as required
- Infection control and peri-implantitis management
- New premium implant placement (Straumann / Nobel)
- New zirconia prosthesis
- 2-tier implant warranty (documented)
- Written report explaining original failure and prevention

Clinical Timeline · Staged Protocol

- *Day 1–2 · Diagnostic Assessment*
CBCT, clinical photos, bacterial culture if indicated, medical history review, written explanation of failure.
- *Day 3–5 · Removal & Debridement*
Atraumatic explantation, thorough debridement, guided bone regeneration if necessary.
- *Healing · 4–6 Months*
Bone graft maturation before new implant placement (if grafting was required).
- *Day 7–14 · New Implants*
If no grafting needed, immediate placement of new premium fixtures with guided surgery.

PROGRAM 05

Complete Smile *Alignment.*

Full clear aligner treatment — from 3D scan to final retainer. Remote monitoring between two in-person visits in Cairo.

STARTING FROM

\$4,400

- 3D digital scan + AI treatment simulation
- All custom clear aligner sets (complete treatment)
- Remote monitoring via photo uploads between visits
- 2 in-person visits in Egypt (start + final refinement)
- Fixed + removable retainers at completion
- Professional whitening session at final visit
- Orthodontic coordinator on WhatsApp 24/7
- Aligner case, chewies, and care kit provided

Clinical Timeline • 6–12 Months (Mostly Remote)

- *Visit 1 • Week 1 in Cairo*
Full orthodontic workup, 3D scan, simulation approval, attachment placement, first aligner sets.
- *Remote Phase • Months 1–5*
Aligner changes every 1–2 weeks. Weekly photo uploads. Adjustments made remotely.
- *Visit 2 • Week 2 in Cairo*
Final refinement aligners, attachment removal, whitening session, retainers delivered.
- *Retention • Lifetime*
Fixed lingual retainer + removable night retainer. Annual virtual check-ins for stability.

THE TECHNOLOGY

Precision, *By Design.*

Every partner clinic is equipped with the same class of technology used in top-tier US and European surgical centers.

CBCT 3D Imaging

PLANMECA PROMAX 3D · CARESTREAM CS 9600
· SIRONA

Sub-0.1mm accuracy. Full 3D visualization of bone, nerves, and sinuses — the foundation of every safe implant plan.

Guided Surgery

FORMLABS FORM 3B · STRATASYS J5 DENTAJET

3D-printed surgical templates ensure each implant is placed exactly as planned — minimizing surgical time, maximizing accuracy.

Laser Systems

FOTONA · BIOLASE · SIRONA

Gum contouring, frenectomy, and soft-tissue management with reduced bleeding and faster healing.

Intraoral Scanning

3SHAPE TRIOS · ITERO · SIRONA

No putty impressions. Instant 3D digital models sent directly to the CAD/CAM workflow.

CAD/CAM Milling

SIRONA CEREC · 3SHAPE TRIOS · ROLAND DWX-52

Prosthetics designed digitally and milled from solid Zirconia or E-max blocks. Same-day delivery, no lab delays.

Surgical Microscopes

ZEISS · LEICA · GLOBAL

Magnification up to 25× for endodontic work, micro-surgery, and precise soft tissue management.

Sterilization Protocols

CLASS B AUTOCLAVES · MELAG · W&H

ISO / CDC-compliant per-cycle documentation. Single-use instruments wherever clinically appropriate.

Anesthesia Systems

LICENSED ANESTHESIOLOGIST FOR IV SEDATION

Conscious sedation delivered and monitored by a licensed anesthesiologist. Vital signs continuous throughout.

THE MATERIALS

The World's Best, *Without Compromise.*

We work exclusively with FDA-approved, CE-marked implant systems sourced from their manufacturers or authorized distributors. No counterfeit, no budget substitutions.

SYSTEM	ORIGIN	SURFACE	10-YEAR SUCCESS	FROM (USD)
Straumann Bone Level · Tissue Level · Roxolid	Switzerland	SLActive · SLA	99.2%	\$1,200
Nobel Biocare NobelActive · NobelParallel	Sweden / USA	TiUnite	98.8%	\$1,100
Osstem Value option for suitable cases	South Korea	SA · SLA	97.5%	\$600

Why These Systems

Straumann, Nobel Biocare, and Osstem are the three most-studied implant systems in peer-reviewed literature. They are used in dental schools worldwide, adopted by national health systems, and covered by documented manufacturer warranties. Their surfaces are engineered to accelerate osseointegration at the cellular level.

How We Choose

The optimal system for your case depends on bone density, position, esthetic requirements, and budget. Your treating dentist makes a personalized recommendation after reviewing your CBCT scan. We never select the implant based on our margin — only on your clinical needs.

Manufacturer Warranty — Tier 1

Every implant we use carries the manufacturer's lifetime warranty against structural failure. If the fixture fractures or fails due to manufacturing defect, it is replaced free of charge by the manufacturer — regardless of where you are in the world.

THE FOUNDATION

Bone Grafting & Prosthetic Materials.

Adequate bone volume is the cornerstone of successful implant placement. When it is missing, we rebuild it. When we deliver prosthetics, we use the strongest materials in modern dentistry.

Bone Graft Materials

MATERIAL	SOURCE	CLINICAL ADVANTAGE	CONSIDERATION
Autograft	Patient's own bone	Gold standard — osteoinductive + osteoconductive	Requires second surgical site
Allograft	Human donor bank	Osteoconductive, eliminates donor site	Very low theoretical disease risk
Xenograft	Bovine (cow) bone	Excellent space maintenance, sinus lifts	Slow resorption
Alloplast	Synthetic (β-TCP, HA)	Unlimited supply, no disease risk	Lacks biologic growth factors

Crown & Prosthesis Materials

MATERIAL	STRENGTH	ESTHETICS	BEST FOR	VERDICT
Monolithic Zirconia	1,200+ MPa	Very good	Posterior, full-arch bridges	Our standard
Lithium Disilicate (E-max)	500 MPa	Excellent	Anterior, smile zone	Front teeth
Porcelain-Fused-to-Metal	High (metal)	Good	Budget-conscious	On request

Our Material Standard

Every posterior crown is monolithic zirconia by default (three times stronger than enamel). Every anterior crown is E-max lithium disilicate. We never substitute a lesser material without written disclosure and your consent.

III

Radical Transparency.

Every number, in writing. Every comparison, honest. This is how a clinician-led concierge prices its services.

THE NUMBERS

Radically Transparent Pricing.

Average clinical fees, no hidden costs. Your custom treatment plan will feature a written price lock.

TREATMENT	EGYPT	USA / CANADA	UK	SAVINGS
Single Implant + Crown	\$900 – \$1,400	\$4,000 – \$6,000	\$3,000 – \$5,000	75%
All-on-4 (Single Arch)	\$3,500 – \$4,800	\$18,000 – \$30,000	\$15,000 – \$24,000	80%
All-on-6 (Single Arch)	\$5,200 – \$6,800	\$25,000 – \$35,000	\$20,000 – \$30,000	80%
Full Mouth (Both Arches)	\$9,700 – \$18,200	\$40,000 – \$80,000+	\$35,000 – \$70,000+	80%
Zirconia Crown (per unit)	\$250 – \$400	\$1,200 – \$2,500	\$1,000 – \$2,000	80%
Porcelain Veneer	\$150 – \$350	\$1,000 – \$2,500	\$800 – \$2,000	85%
Bone Graft (per site)	\$300 – \$700	\$800 – \$3,000	\$700 – \$2,500	75%

Why patients choose Egypt

Between Cairo and Alexandria alone, Egypt trains more dental graduates annually than most of Europe. Prices are the lowest of the three major medical-tourism destinations, clinical heritage is the oldest, and the tourism experience — Pyramids, Nile, Red Sea — is unmatched.

IV

Concierge, Not *Travel Agency.*

Every logistical detail handled, from the moment you land in Cairo until the day you return home.

WHAT'S INCLUDED

The Concierge Experience.

Everything available across three travel tiers — from Essential to Signature VIP. See page 32 for pricing.

LOGISTICS & COMFORT

- **VIP Airport Pickup** — Dedicated driver, premium vehicle.
- **5-Star Accommodation** — 5–7 nights curated luxury hotel.
- **Private Daily Transfers** — Chauffeured to and from clinic.
- **Local SIM Card** — Pre-loaded with data.
- **Bilingual Medical Coordinator** — English-speaking guide.
- **Airport Fast-Track** — Priority immigration clearance.

WARRANTY & FOLLOW-UP

- **2-Tier Implant Warranty** — Lifetime manufacturer + 5-year clinical service.
- **Telehealth Follow-Ups** — Three virtual sessions after return home.
- **Local Dentist Coordination** — Licensed provider in your country.

CLINICAL & SUPPORT

- **All Clinical Procedures** — Imaging, surgery, materials.
- **Premium Implants** — Straumann or Nobel Biocare only.
- **Premium Prosthetics** — Zirconia and E-max only.
- **24/7 Emergency Line** — WhatsApp to your coordinator.
- **Written Aftercare Protocol** — Recovery + medication.
- **Post-Op Pharmacy Delivery** — To your hotel room.

OPTIONAL ADD-ONS

- **Hotel Upgrades** — Suites, Nile views, extended stays.
- **Curated Tours** — Pyramids, Luxor, Nile cruise, Red Sea.
- **Companion Packages** — Family-friendly stays and activities.

THE JOURNEY

Your 10-Day Itinerary.

From first X-ray to final smile — here is exactly what happens, day by day.

○ Day 0 · Virtual Consultation

What happens — You submit your X-ray or CBCT. Dr. Fathi personally reviews it with the medical board. Within 48–72 hours: written treatment plan with itemized pricing, locked quote, proposed travel window.

○ Day 1 · Arrival & Welcome

What happens — Coordinator meets you at Cairo International Airport. VIP transfer to your curated hotel. Welcome kit: local SIM card, itinerary, emergency contacts, curated soft-food menu.

○ Day 2 · Diagnostics & Planning

What happens — CBCT 3D imaging, intraoral digital scan, examination by your specialist. Digital Smile Design session to preview final result. Written plan confirmed and signed.

○ Day 3 · Procedure Day

What happens — Full surgical day. Anesthesia selected. Guided surgery with 3D-printed templates. Post-op review, medication dispensed, written aftercare handed over.

○ Day 4 & 5 · Rest & Recovery

What happens — Recovery at hotel. Soft-food room service. Ice packs as directed. Optional low-impact activities if cleared by your doctor.

○ Day 6 & 7 · Fitting & Adjustments

What happens — Return to clinic for trial fitting. Bite calibration. Esthetic verification with prosthodontist.

○ Day 8–10 · Final Review & Departure

What happens — Final clinical check-up, healing assessment, written warranties and aftercare handed over. VIP transfer to airport.

○ Aftercare · Lifetime Relationship

What happens — Telehealth check-ins at 1 week, 1 month, 3 months. 24/7 WhatsApp support in your timezone.

THE SIX PHASES

The Day of Surgery.

Radical transparency — including exactly what happens on the day your treatment begins.

01 Pre-Operative Preparation · 30 min

Chlorhexidine mouthrinse, vital signs check, IV line placement for sedation cases, and final review of your treatment plan with your specialist. Any last-minute questions are answered here.

02 Anesthesia · 10–20 min

You choose the level — local anesthesia (fully awake), oral sedation (relaxed but conscious), or IV sedation (dream-like, minimal memory). A licensed anesthesiologist is present for IV sedation. Vital signs monitored continuously.

03 Guided Surgery · 2–3 hours per arch

Implants placed using 3D-printed surgical templates derived from your CBCT. Surgical microscope used where indicated. Sterile field maintained throughout.

04 Immediate Loading · 1–2 hours

Where clinically indicated, a temporary fixed prosthesis is attached same day — so you never leave the clinic without teeth.

05 Post-Operative Care · 30 min

Written instructions, prescribed medication, ice packs, and 24/7 emergency line. Chauffeur returns you to your hotel.

06 Same-Day Follow-Up · Evening

Your coordinator calls your room to confirm you are comfortable. A soft meal from our curated recovery menu is delivered. Any concerns escalated immediately to the on-call dentist.

WHAT TO EXPECT

Recovery & Post-Op Care.

Week 1

Initial Healing

- Mild swelling and bruising — normal
- Soft, cool foods only
- Prescribed antibiotics + pain relief
- No smoking, no strenuous activity

Weeks 2–4

Soft Tissue Recovery

- Swelling subsides
- Sutures dissolve or are removed
- Return to most normal activities
- Temporary prosthesis comfortable

Months 2–4

Osseointegration

- Implants fuse with bone
- Healing is invisible but active
- Telehealth check-ins continue
- Gradual return to normal diet

Months 4–6

Final Prosthesis

- Final permanent bridge installed
- Bite fine-tuned for perfect fit
- Full function restored
- Annual check-ups begin

Typical Medication Protocol

- **Antibiotics** — Amoxicillin or Clindamycin (5–7 days)
- **Pain relief** — Ibuprofen 400mg and/or Paracetamol 500mg
- **Anti-inflammatory** — Prescribed for first 3–5 days
- **Antiseptic rinse** — Chlorhexidine 0.12% from 24h post-op
- **Avoid** — Aspirin (increases bleeding)

Normal / Not Normal

- **Normal** — Swelling peaking 48–72h, bruising on jaw, minor bleeding day 1.
- **Not normal** — Fever > 38.5°C, unrelenting pain, bleeding > 24h, numbness > 72h.
- **Action** — Call the 24/7 line immediately. Any timezone.

RECOVERY RESIDENCES

Five-Star Accommodations.

Curated exclusively for the comfort, safety, and recovery of our international patients.

01 — 6TH OF OCTOBER

Novotel Cairo

4-Star International

Modern rooms, international dining. Immediate clinic access.

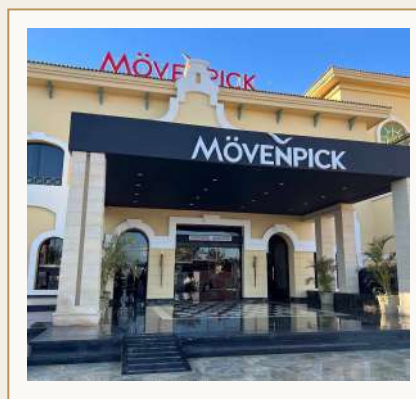

02 — NILE VIEW

Nile-View Suite

5-Star · Panoramic view

Curated suite overlooking the Nile. Ideal for recovery and rest.

03 — MEDIA CITY

Mövenpick Hotel

5-Star Swiss · Spa & dining

Swiss hospitality with spa. Perfect luxury-proximity balance.

Specific hotel names and confirmed rates are shared in writing after your free clinical review.

THREE TIERS

Extend Your Journey. *Or Keep It Simple.*

Travel logistics are optional. Your clinical package covers treatment only — choose the tier that matches your style, or book independently. All tiers are quoted per patient for a standard 8–10 day stay.

01

Essential Comfort

4-STAR BASE

+\$1,700

USD PER PATIENT

- 4★ hotel — 8–10 nights
- Airport pickup + drop-off
- Clinic transfers (up to 4)
- Local SIM card
- 24/7 WhatsApp coordinator
- English-speaking driver

02

Premium Journey

MOST CHOSEN

+\$3,600

USD PER PATIENT

- 5★ Recovery Suite (Nile or Pyramids view)
- Unlimited clinic transfers
- Bilingual medical coordinator on-call
- Welcome kit + curated recovery meals
- Nile dinner cruise (1 evening)
- Post-op pharmacy delivery

03

Signature VIP

FULL CONCIERGE

+\$6,650

USD PER PATIENT

- 5★ panoramic Nile suite
- Private chauffeur on standby
- Dedicated personal concierge
- Private Giza Pyramids guided tour
- Luxor day trip (post-recovery)
- In-room private chef
- Airport fast-track immigration
- Companion included in all activities

What's Not Included

Important Notes

V Documented, Not *Promised.*

Trust is not built on promises. It is built on documentation. Every guarantee we make, in writing.

OUR COMMITMENTS

Our Documented Guarantees.

Trust is not built on promises. It is built on documentation.

2-Tier Implant Warranty

Tier 1 — Manufacturer (Lifetime): The implant fixture itself carries the manufacturer's lifetime warranty against structural failure.

Tier 2 — Clinical Service (5 Years): Our partner clinic covers clinical re-treatment labor for 5 years — including removal and re-placement of a failed implant.

Written Price Lock

The price on your final signed treatment plan is the price you pay. No hidden fees, no surprise clinic charges, no post-booking increases.

100% Deposit Refund

If our specialists determine your case cannot be treated safely, your deposit is refunded in full within 14 business days.

Written Treatment Plan

Fully documented, transparent, and signed by your coordinating dentist before you travel. No verbal promises.

Documented Aftercare

Comprehensive medication schedules, dietary restrictions, and emergency protocols — in physical and digital formats.

24/7 Timezone Support

Our concierges are staffed to support North American and UK timezones, ensuring you always have a lifeline.

Legal Protection — Egyptian Medical Liability Law No. 13 of 2025

All partner clinics maintain mandatory professional liability insurance through the government-established Medical Liability Insurance Fund. Medical facilities are jointly liable with their practitioners for any harm resulting from medical error. Any pre-emptive waiver of liability is void and unenforceable under Egyptian law. Patients have the right to file complaints with the Supreme Medical Liability Committee — established under the Prime Minister's supervision.

FULL TERMS

2-Tier Implant Warranty

Full Terms.

Tier 1 — Manufacturer (Lifetime)

The implant *fixture* itself (Straumann, Nobel Biocare, or Osstem) carries the manufacturer's lifetime warranty against structural failure. If the fixture fractures under normal clinical use, the manufacturer replaces the fixture free of charge.

Tier 2 — Clinical Service (5 Years)

Our partner clinic covers the clinical re-treatment labor for 5 years from placement — including removal and re-placement of a failed implant, at no additional clinical fee — provided you:

- Attend annual check-ups (in person or via telehealth)
- Maintain good oral hygiene
- Do not exceed 10 cigarettes per day
- Follow post-op and long-term care instructions

What's Covered

- Implant fixture fracture — replaced by manufacturer
- Clinical labor for removal and re-placement (within 5 years)
- Crown/prosthesis manufacturing defects (within 5 years)

Note: Travel, accommodation, and time-off costs to return to Cairo for warranty service are the patient's responsibility.

What's Not Covered

- Peri-implantitis caused by poor hygiene or smoking
- Damage from trauma, accidents, or bruxism
- Travel, hotel, and time-off costs to return to Cairo
- Corrective work performed by third-party dentists
- Cases where annual check-ups were not maintained

Where Warranty Work Is Performed

Clinical re-treatment is performed at our accredited partner center in Cairo. We do not cover third-party work performed outside our network. For routine check-ups and minor issues, we coordinate with a licensed dentist in your country and share your complete treatment records.

Full warranty terms — including all conditions, exclusions, and claim procedures — are provided in writing before treatment begins.

THE FIRST TWENTY

Founding Patients Program.

We chose depth over volume — from day one.

To mark the international launch of Nile Smile Concierge, we are offering an exclusive opportunity for our first 20 patients.

20%

LIFETIME DISCOUNT

Applied to all clinical treatments for our first 20 Founding Patients.

In exchange, we ask only two things:

- Provide a verified, documented testimonial of your clinical journey.
- Share your honest, direct feedback with our team.

Inquire during your Free Clinical Review to check remaining availability.

BEFORE YOU FLY

Seamless Travel *Logistics.*

VISA

Passport holders from **Australia**, the US, Canada, UK, EU, and New Zealand are eligible for a Visa on Arrival at Cairo International Airport. Cost: \$25 USD (cash), valid for 30 days. We provide full documentation to support your entry — including an invitation letter and treatment confirmation.

CURRENCY & PAYMENTS

Local currency: Egyptian Pound (EGP). We accept major credit cards and wire transfers. We recommend *Wise* for transparent exchange rates with no hidden banking fees.

CONNECTIVITY

Upon arrival, your concierge provides a local Egyptian SIM card pre-loaded with data — immediate connection to family and our team.

COMPANIONS & FAMILY

Bringing a spouse, partner, or family member? We arrange family-friendly accommodation and optional curated tours.

FLIGHTS

- **Sydney / Melbourne** — ~16–18 hrs (1 stop, via Doha/Dubai)
- **Brisbane / Perth** — ~17–20 hrs (1 stop)
- **New York (JFK/EWR)** — ~10–11 hours direct
- **Toronto (YYZ)** — ~11–13 hours direct / 1-stop
- **London (LHR)** — ~4–5 hours direct
- **Paris (CDG)** — ~4–5 hours direct

TRAVEL INSURANCE

We mandate that all patients carry standard travel insurance. We can provide a list of recommended providers specializing in medical travel coverage.

FOOD & DIET

We coordinate with your hotel's culinary team to ensure soft-food, nutrient-dense menus are available during recovery.

WEATHER & PACKING

Weather by month, plus a personalized packing list tailored to your treatment dates. Comfortable loose clothing recommended.

THE ANSWERS

Frequently Asked Questions.

— Is Egypt safe for medical travel?

Yes. Egypt welcomes over 15 million visitors annually. You are escorted by private drivers, stay in secure 4- and 5-star hotels, and are treated in upscale medical districts like Sheikh Zayed City.

— Do I need a visa?

Yes, but it is a simple Visa on Arrival for US, Canadian, and UK citizens, costing \$25 USD at the airport.

— Are your dentists licensed?

Absolutely. Every specialist is strictly vetted, highly credentialed — many with international fellowships — and fully licensed by the Egyptian Dental Syndicate.

— What if something goes wrong after I return home?

You receive a written aftercare protocol, three scheduled telehealth follow-ups (1 week, 1 month, 3 months), and a documented 2-tier implant warranty. We coordinate with a licensed dentist in your country using your full treatment records.

— What implant brands do you use?

FDA/CE-approved global leaders only — primarily Straumann (Switzerland) and Nobel Biocare (Sweden/USA). Osstem (South Korea) is available as a value option for suitable cases.

— Does my local insurance cover this?

Most US/CA/UK/AU domestic dental insurance does not cover out-of-country care. However, our cash prices are typically 70–80% lower than your out-of-pocket co-pays back home. Australian patients: some private health funds may reimburse a portion under "overseas dental" extras — check with your fund before traveling. We provide itemized invoices for submission.

— What are the risks of implants?

All surgeries carry documented risks. Systematic reviews show a 94.6% overall implant success rate, with peri-implantitis affecting approximately 9.6% of implants. Our prevention protocol includes CBCT-guided planning, premium surfaces, and 6-month maintenance intervals.

— Can I pay in installments?

We require a deposit to secure clinic time and hotel, with the balance paid in stages during your time in Cairo. We do not currently offer post-treatment financing.

— What languages do you speak?

Your entire clinical journey is conducted in fluent English. Arabic is our native language; French, Spanish, and German can be arranged on request.

THREE STEPS

Ready to Restore *Your Smile?*

Three simple steps — and the process is underway.

-
- 01** Upload Your X-Ray
Send us your recent panoramic X-ray or CBCT scan via our secure portal. Dr. Fathi and the medical board perform a free clinical review — no obligation, no pressure.

 - 02** Receive Your Plan
Within 48–72 hours, receive a comprehensive, transparent, written treatment plan detailing timelines, materials, and a locked-in price. Your questions answered in writing before any commitment.

 - 03** Virtual Consultation
Schedule a complimentary Zoom video call with your coordinating dentist to discuss the plan, ask clinical questions, and meet the team. If you're ready, we book your travel.

Nile Smile

CONCIERGE

NILESMILECONCIERGE.COM

Nile Smile Concierge is a dental coordination service, not a medical or dental provider. All clinical procedures are performed by licensed dentists at accredited partner clinics. Clinical review is a coordination service. A doctor-patient relationship is established only upon direct consultation with the treating dentist. Prices are indicative in USD and valid for 30 days from written quote. Full terms, refund policy, and warranty conditions are provided in writing before treatment begins.
